Commissioner Smith offered the following:

Resolved, That the Park Board, of the Department of Parks, hereby protests against the enactment of law proposed in the bills now pending in the Legislature known as Senate Bill No. 1132 and Assembly Bill No. 2059, entitled:

“An Act providing for the registration, identification and regulation of motor vehicles operated upon the public highways of this state, and of the operators of such vehicles,”

—for the reason that said bills deprive the Department of Parks of its right to make proper rules and regulations for the safety and comfort of the people and the protection of the property entrusted to its care.

It is further

Resolved, That the President of the Board be and he hereby is directed to transmit at once a copy of this resolution to the Corporation Counsel, with the request that the bill be vigorously opposed on behalf of this Department in the interest of the vast majority of the people of this City, for the reasons:

First—That the safety of the people at large, and particularly the children, who patronize our parks and parkways demands that a fixed limit of speed be maintained for all vehicles.

Second—That the use of chains on tires of automobiles do incalculable damage to macadam roadways, and that it will be practically impossible to keep said roadways of the parks and parkways in proper condition if the bills referred to become a law.
